Subject: RE: Deschutes TMDL - Revised TSD for review

Thanks Miranda. I think I will pass on your 4/27 meeting, since I think the issues I raised are pretty clear and you have a great group to discuss them with. I will also be traveling back to Boise from a meeting the previous evening. If there are questions about these issues you want to discuss, I should be back in the office the afternoon of 4/27.

Thanks, these are great points Leigh, and issues I'm grappling with as well. It helps to see where you have found inconsistencies, and it's important to correct that in the write-up. I've set up a meeting with Dave, Laurie, Leah, and Chris on 4/27 at 11:30 am (Pacific). My goal for that meeting is to summarize the outstanding concerns folks have and discuss/resolve them so I can make final edits to the decision memo before sharing with HQ. You are welcome to participate, but I know you are very busy so I will leave it up to you. Just let me know if you are interested and I can send you the calendar invite.

Thanks again for looking this over!

Miranda –

I took a quick look at the bact, temp and sediment write-ups again. I hesitated to embed comments in the Sharepoint doc, since it is so marked up. Here are my thoughts, questions.

Thanks Leigh! (b) (5)

And, since you gave a lot of useful feedback (b) (5), you may want to look at that one too.

Feel free to call me if you want – I'll be in the office all week.

Thanks,

Miranda Hodgkiss

Hi Miranda –

I'll be glad to look at this again. I may want to confirm with you when your in the office, which areas your most interested in feedback.

Overall, I really like the reorganization, and clear decision statements!

Subject: Deschutes TMDL - Revised TSD for review

Hi everyone,

I have worked on revising Chris's TSD based on recent briefings and feedback received. I would appreciate you taking a look at this and flagging any big concerns you have (we are aiming to avoid re-visiting discussions that have already been hashed out). You should have just received a link from me to this document. Just in case, you can also access it here:

https://usepa-my.sharepoint.com/:w:/r/personal/hodgkiss_miranda_epa_gov/Documents/Working%20Files/Deschutes/EPA%20R10%20TSD%20-%20Deschutes%20TMDL%20decision%20rationale%20v2.docx?d=wbe61ad483d7c443187e8f784dda21094&csf=1&e=ISLUSS

You will see that I've reorganized the document on a pollutant-by-pollutant basis. Other major changes include adding clear decision statements at the end of each section. These should correspond with the decision summary at the end. I have tried to resolve/address comments that I could (those are now greyed out). If you have a limited amount of time to review this, please focus on the areas flagged by questions/comments from me. Those are the sections I need the most help with. Feel free to let me know if anything is unclear or if you have questions.

I would like to wrap up this peer review by the end of next week (COB Friday, 4/13), so I am asking for your feedback by then. If this won't work for you, please let me know. In the meantime, I will also work on the disapproval reason matrix table to supplement the decision memo information.

Thanks so much!
